MAR 05 1986

Dear Mr. Patil:

RE: Eagle Signal Control Division
Davenport, Iowa
EPA I.D. # IAD051001337

I have made the tentative decision to terminate Interim Status under the Resource Conservation and Recovery Act (RCRA) at the above-referenced facility.

The public comment period will begin on March 11, 1986 and will end on April 26, 1986. The public notice will be published in the Quad City Times and broadcast on KIIK(FM) and WOC(AM).

Enclosed for your information are copies of the Notice of Intent to Terminate RCRA Interim Status, the Statement of Basis on this decision, the Public Notice (for newspaper), and the Public Notice for Radio Broadcast.

If you wish to comment on this intent to terminate RCRA Interim Status or request a public hearing, you must submit your comments or request in writing to Faye Sandberg at the above address before April 26, 1986.

If you have any questions, please contact Ms. Sandberg at (913) 236-2852.

Sincerely yours,

David A. Wagoner
Director, Waste Management Division

NOTICE OF INTENT TO TERMINATE INTERIM STATUS
AND APPROVE CLOSURE PLAN

EAGLE SIGNAL CONTROL DIVISION
DAVENPORT, IOWA
EPA I.D. # IAD051001337

Under the Resource Conservation and Recovery Act (RCRA), all facilities which treat, store, or dispose of hazardous waste must have a permit to operate. Those hazardous waste management facilities in operation on November 19, 1980, were allowed to continue in operation until a permit could be issued if certain conditions were met. This type of continued operation is known as "interim status." The above facility is an interim status facility that has indicated that it does not treat, store or dispose of hazardous waste and has requested termination of interim status.

The facility has submitted a closure plan which has been reviewed and tentatively approved by the Iowa Department of Water, Air and Waste Management and the U.S. Environmental Protection Agency (EPA). The facility has also completed the necessary administrative procedures required for termination of interim status.

The EPA, therefore announces its intent to approve the closure plan and to terminate interim status. This is a type of permit action subject to the procedures found at Title 40 Code of Federal Regulations Part 124 and 270.

A copy of this Notice, statement of basis and the Administrative Record which include pertinent information on the facility and the closure plan will be available for public review. Public comment is invited on the intended actions of approval of the closure plan and termination of interim status.

The Public Notice attached to this document specifies the dates for public comment and the locations of the administrative record for public review and provides information on the public comment procedure.

David A. Wagoner
Director, Waste Management Division

Date

PUBLIC NOTICE

UNDER THE RESOURCE CONSERVATION AND RECOVERY ACT (RCRA), ALL FACILITIES WHICH TREAT, STORE, OR DISPOSE OF HAZARDOUS WASTE MUST HAVE A PERMIT TO OPERATE. THOSE HAZARDOUS WASTE MANAGEMENT FACILITIES IN OPERATION ON NOVEMBER 19, 1980, WERE ALLOWED TO CONTINUE IN OPERATION UNTIL A PERMIT COULD BE ISSUED IF CERTAIN CONDITIONS WERE MET. THIS TYPE OF CONTINUED OPERATION IS KNOWN AS "INTERIM STATUS." EAGLE SIGNAL CONTROLS DIVISION, OF DAVENPORT, IOWA IS AN INTERIM STATUS FACILITY THAT HAS REQUESTED TERMINATION OF ITS INTERIM STATUS. THE FACILITY HAS INDICATED THAT IT DOES NOT TREAT, STORE OR DISPOSE OF HAZARDOUS WASTE. THE FACILITY HAS SUBMITTED A CLOSURE PLAN AND HAS COMPLETED THE ADMINISTRATIVE PROCEDURES NECESSARY FOR TERMINATION OF INTERIM STATUS. THEREFORE, THE UNITED STATES ENVIRONMENTAL PROTECTION AGENCY, REGION VII, KANSAS CITY, KANSAS, TODAY ANNOUNCES ITS INTENT TO APPROVE THE CLOSURE PLAN AND TO TERMINATE INTERIM STATUS. THIS IS A TYPE OF PERMIT ACTION SUBJECT TO THE PROCEDURES FOUND AT TITLE 40 CODE OF FEDERAL REGULATIONS (40 CFR) PARTS 124 AND 270.

Eagle Signal Control Division has been operating a storage facility under interim status. On August 27, 1984 the facility requested withdrawal of the Part A application and termination of interim status in lieu of submittal of a Part B application. Public comment on the intended action to terminate interim status is invited.

A Notice of Intent to Terminate Interim Status and Approve the Closure Plan is a type of permit action subject to procedures applicable to interim status as set forth in Title 40 CFR Parts 124 and 270 and is based upon an administrative record.

The administrative record consists of: the Notice of Intent to Terminate RCRA Interim Status; the Statement of Basis, which describes the reasons supporting the decision; the closure plan; and all pertinent data submitted by the facility.

The administrative record is available for public review beginning on March 11, 1986, between the hours of 9:00 a.m. and 4:00 p.m., Monday through Friday at: the EPA Region VII Library, 726 Minnesota Avenue, Kansas City, Kansas 66101; the Iowa Department of Water, Air and Waste Management, Henry A. Wallace Building, 900 East Grand, Des Moines, Iowa; and at the Davenport City Hall, City Clerk's Office, Davenport, Iowa.

The EPA has not scheduled a public hearing; however, if requests are received which indicate a significant degree of public interest in this Notice of Intent to Terminate Interim Status and to Approve the Closure Plan a public hearing will be scheduled. Requests for a public hearing must be in writing to EPA and must state the nature of the issues proposed to be raised in the hearing. Such requests must be submitted by April 26, 1986. The public notice and public hearing procedures may be found in 40 CFR Section 124.11 and 124.12.

Comments and requests for either additional information or a hearing should be directed in writing to Faye Sandberg, RCRA Branch, EPA Region VII, at the address listed above or by telephone at (913) 236-2852. Comments must be submitted by April 26, 1986.

After consideration of all comments received, EPA will make a final permit decision. If the determination is substantially unchanged from that announced by this Notice, EPA will notify all persons submitting written comments or requesting the Notice of Termination of Interim Status and Approve the Closure Plan. If the determination is substantially changed from that announced by this Notice, a new Public Notice will be issued and the public participation process will be reopened.

STATEMENT OF BASIS

EAGLE SIGNAL CONTROL DIVISION
DAVENPORT, IOWA
EPA I.D. # IAD051001337

All facilities which treat, store, or dispose of hazardous waste must have a permit to operate. A facility could obtain interim status if it was treating, storing, or disposing hazardous waste prior to November 19, 1980. Interim status grants the facility additional time to prepare and submit a complete permit application. Interim status provides for two stages in the permitting process. A Notification initiates the first stage. The subsequent Part A application fulfills the requirements to obtain interim status. The second stage requires the submittal of a Part B application. The above facility has chosen to submit a closure plan and not to submit the Part B Hazardous Waste Permit application required by the Resource Conservation and Recovery Act (RCRA). Federal regulations require that a complete Part B application be submitted or a facility's interim status may be terminated.

In addition, a facility requesting termination of interim status must have an approvable closure plan. Such a plan has been submitted by the above facility. Therefore, the United States Environmental Protection Agency, Region VII, Kansas City, Kansas, announces its intent to approve the closure plan and to terminate interim status for the facility. This is a type of permit action subject to procedures applicable to interim status as set forth in Title 40 Code of Federal Regulations (40 CFR) Parts 124 and 270. This announcement of an intent to terminate RCRA interim status is based on the following information:

- The facility was "in existence" on November 19, 1980, as required by Section 3005 of RCRA.
- The facility complied with the notification requirements of Section 3010(a) of RCRA.
- The facility submitted a RCRA Part A Hazardous Waste permit application as required by Section 3005 of RCRA.
- The above facility has submitted a written request that their Part A permit application be withdrawn and that interim status be terminated.
- The facility has submitted a closure plan.
- The closure plan has been reviewed and approved by the Iowa Department of Water, Air and Waste Management and the Environmental Protection Agency.

- The facility has waived its right to submit a closure plan up until 15 days following termination of interim status.
- The facility did not submit a Part B Hazardous Waste Permit application.

The Public Notice attached to this document specifies the locations of the administrative record for public review and provides information on the public comment procedure.
